

TASTE Macedon Ranges Wine

orword By James Halliday

Despite its close proximity to Melbourne - 50km as the crow flys, only an hour by car - the Macedon Ranges is one of Victoria's best kept wine secrets. Even if the discerning wine tourist arrives somewhere near its epicentre, it is a fair bet he/she will have seen only a few vineyards - unless, that is, they have the excellent map provided, particularly on the website, by the Macedon Ranges Vignerons Association.

Even then, the ever changing topography will have provided its challenges, denying the visitor many expansive vistas. Paradoxically, this lies at the heart of the appeal of the Macedon Ranges. As you rise and fall, twist and turn, there is always something new or unexpected. It is tempting to simply say that thanks to altitude - 300 to 800m above sea level - this is a very cool region with the capacity to make some of Australian mainland's finest sparkling wines. But it's much more than that!

There are over 40 wineries profiled in this guide, it's not suprising the majority of them should nominate Pinot Noir as producing their flagship wine. Thereafter, it is a broad spread: Shiraz, Chardonnay, Sparkling, Riesling, Gerwűrztraminer, Pinot Gris, Nebbiolo, Lagrein and Cabernet Sauvignon, to name a few. Despite this varietal diversity, the cool climate has a unifying influence on the style of wines. They are more perfumed than their warm region counterparts; they are usually in the light to medium-bodied spectrum, with lower alcohol levels and finer tannins; where oak is used, it is kept in restraint; and finally, the natural acidity not only preserves the freshness of the wines, but increases the length of the palate and aftertaste.
